

Adaptavist Learn is an online training platform with video courses designed to onboard your team on Atlassian tools.

Why Learn?

You've invested in Atlassian tools and some of your team know how to raise a ticket on Jira but the rest can only manage to raise an eyebrow.

So what do you do?

Search frantically in Google for some random self-help videos, fire your team the links and hope for the best?

We think not. Instead, try Adaptavist Learn.

What makes learning with Adaptavist different?

Training from the best in the business

Learn with Atlassian certified course creators and trainers, with decades of experience within the Atlassian ecosystem.

Always up-to-date

Unlike other course options on the market, Learn courses are up-to-date and continually refreshed.

Cost effective

Adaptavist Learn provides training for enterprises of any size at a fraction of the cost of other providers.

Benefits for your organisation

Onboard at scale

Learn enables training at scale for new and existing teams.

Stay compliant

Learn courses can help your teams be compliant and implement best practices.

Accelerate innovation

Learn helps to fast-track innovation by building your team's expertise in Atlassian solutions.

Reduce onboarding costs

Reduce time invested in training new employees.

Accessible on-demand Atlassian training platform

With a subscription, users have access to all courses across Atlassian and Adaptavist products. The Learn platform works on any device and in both video and text format.

Just some of the courses from our ever-growing library

Confluence

for Jira Administrators

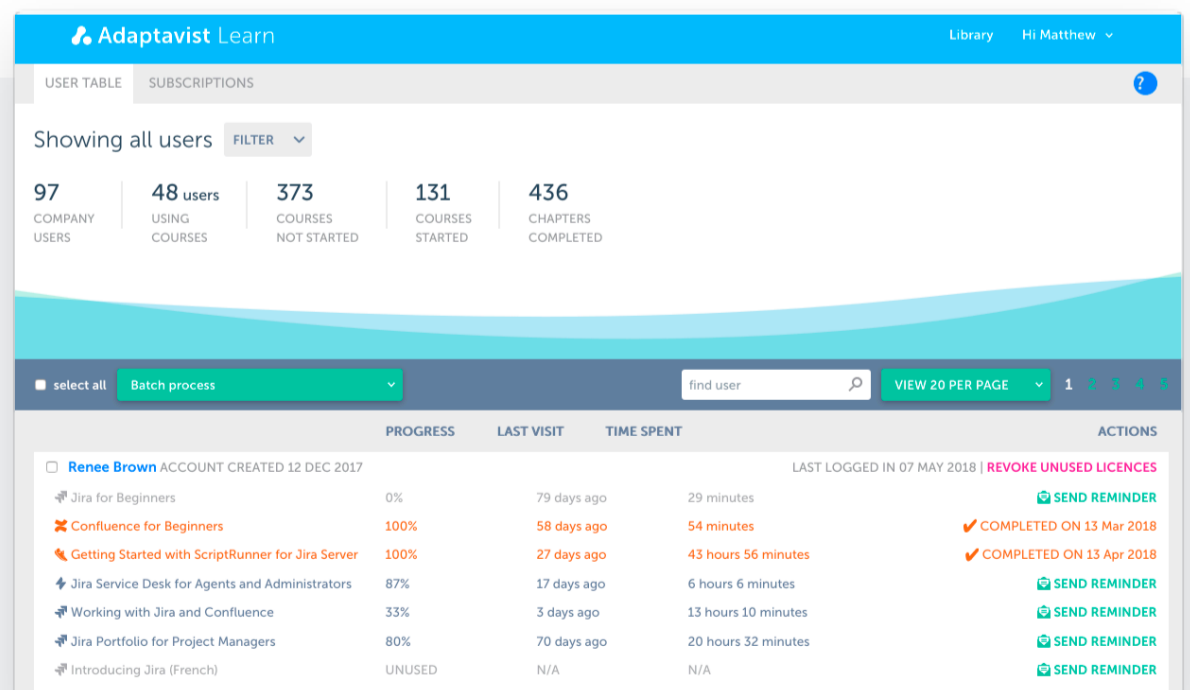

Jira Administration

Monitor course completion

Rich reporting, enables admins to monitor course completion to ensure compliance.

Learning reminders

Admins can send follow up reminders to users who have missed training deadlines.

The screenshot shows the 'Adaptavist Learn' dashboard with a 'SUBSCRIPTIONS' tab selected. It displays a summary of user progress: 97 company users, 48 users using courses, 373 courses not started, 131 courses started, and 436 chapters completed. Below this is a table for user 'Renee Brown' with columns for course name, progress percentage, last visit, time spent, and actions.

	PROGRESS	LAST VISIT	TIME SPENT	ACTIONS
