

Kanoah CRM

Track deals, manage customer relationships and organize your sales team right inside JIRA. Kanoah CRM is designed to make tracking your deals as lightweight and easy as possible. Combined with HipChat for real-time communication it seamlessly integrates with the entire Atlassian ecosystem—from JIRA and Confluence to JIRA Service Desk it provides an unified experience across apps you use everyday. With Kanoah CRM simple and visual sales pipeline, you can easily organize, manage and maintain your deals. Simply drag and drop your deals from one stage to the next to drive your sales process forward.

We have tried to make this documentation as intuitive and straight-forward as possible, but given the flexibility of Kanoah CRM, we recognize you may have additional questions that are not covered. Please feel free to contact us at contact@kanoah.com and we will be happy to assist you with any questions or any comments and suggestions you may have.
